Q5. As you may have heard, President Trump has ended the deferred action for childhood arrivals program – or DACA – that provided temporary legal work permits to undocumented immigrant young adults, called dreamers. Without DACA, about 800,000 people who had completed the application process and passed a thorough background check, will no longer be able to work legally, and will be at risk for deportation. Do you agree or disagree with President Trump's decision to end DACA?

The DACA program will not officially end for six months, giving Congress the chance to pass a law that would address the immigration issue.
For each of the different laws being proposed, please indicate if you think it is a good idea, or a bad idea for Congress to pass the law.

Q6. Pass the DREAM Act, which would allow young undocumented immigrants who came to this country as children the chance to live and work legally in the United States and eventually apply for permanent legal status and earn a path to citizenship.

Q9. Pass something like the DREAM Act, but without permanent legal status or citizenship. This would allow young undocumented immigrants who came to this country as children the chance to live and work legally in the United States, but they would have to renew their permit every few years, and would not be allowed to achieve permanent legal status or citizenship, legal status or citizenship?

Q10. Earlier this year former Maricopa County Sheriff Joe Arpaio was convicted for continuing to use law enforcement to racially profile immigrants after a federal judge had ordered him to stop. President Trump recently granted a pardon to former Maricopa County Sherriff Joe Arpaio, which means Arpaio will not face any consequences for breaking the law and refusing to obey the court order to stop racial profiling. Do you agree or disagree with President Trump's decision to pardon former Maricopa County Sheriff Joe Arpaio?

Methodology

Latino Decisions surveyed 755 Latino adults between September 12-19, 2017. Interviews were collected online in a respondent self-administered format, and the survey and invitation was available to respondents in English or Spanish. The full data are weighted to match the adult population in the 2015 Census ACS 1-year data file for age, gender, education, nativity, ancestry, and voter registration status. A post-stratification raking algorithm was used to balance each category within +/- 1 percent of the ACS estimates. The survey carries a margin of error of +/- 3.57 percentage points.
